Presentation Plan

On a single piece of paper, indicate your plan for both the written and the visual presentation for your project.

WRITTEN PLAN

Your report should follow the example below. Indicate the topic for each sub-topic.

- Title Page
- Introduction:
- Sub-topic #1:
- Sub-topic #2:
- Sub-topic #3:
- Sub-topic #4:
- Sub-topic #5:
- Sub-topic #6:
- Conclusion
- Works Cited Page

VISUAL PLAN

Your visual display should provide an easy-to-read but informative overview of your topic. Bold titles, appropriate visuals (maps, photographs, etc.), relevant artifacts, etc. will make your display interesting to your audience, and should also help explain what your topic is about whether you are present to talk about it or not.

Prepare a plan that will indicate what you will include on each panel of your display board, as well as what items will sit in front of the display. *Your written report must accompany your display.*

NOTE:

If you are preparing a slideshow or MovieMaker presentation, remember that will be limited access to the technology required to display these presentations at the school fair. If you cannot provide this equipment yourself, it would be a good idea to have a printed copies of your slides bound in a separate duotang.
